Faculty Resources

MURACE at Georgia College

Faculty that are interested in directing an undergraduate research experience or simply want more information about getting involved in undergraduate research at Georgia College should visit the MURACE (Mentored Undergraduate Research and Creative Endeavors) website located [here](#). There you will find information about faculty professional development opportunities, planning and development grants, information about summer research stipends, as well as become familiar with the various student opportunities such as student research conferences and travel grants.
