1. Request: (include reason) Consult academic adviser and attach additional sheet(s) if necessary.

I would like to request re-entry into the FNP program to retake the Pediatrics Course (NRSG 7050) due to the following circumstances:

1. I worked full time this semester with 2 clinical courses (Women's Health and Pediatrics)—next time around i will only have one clinical course while working full-time.
2. I completed all of my required Clinicals in a timely and satisfactory manner;
3. I completed all of my required assignments (EMRs, Article Summaries, and Presentations) in both Clinical courses with an average of 91 and above.
4. I've only had experience with the Adult population prior to taking this class and feel as if I'm more knowledgeable about the Pediatric population and will excel in the Pediatric course if allowed to retake.

I appreciate the committee's consideration of my request and look forward to returning to the FNP program next Fall 2019.
