

Student Evaluation of Midwifery Program Survey

Please indicate to what degree you agree with the following statements: Scale 0 to 5

1. Students are able to participate in the School of Nursing decision making (i.e. class officers, Graduate Council, Student Government Association).

2. Academic policies of the parent institution and the midwifery program are congruent and support achievement of the mission, goals and expected program outcomes. These policies are fair, equitable, published and accessible.

3. Fiscal (money) and physical and online resources (i.e. equipment, supplies, computer labs, and online technology) are sufficient to enable the midwifery program to fulfill its mission, goals and expected outcomes.

4. Advising services are sufficient to ensure quality and meet the student's needs.

5. Counseling services are sufficient to ensure quality and meet midwifery student needs.

6. Career Center services are sufficient to ensure quality and meet midwifery student needs.

7. Library services are sufficient to ensure quality and meet midwifery student needs.

8. The curriculum (core, support and midwifery content) is logically structured to achieve expected student outcomes. Master's curricula builds on a foundation comparable to baccalaureate level nursing knowledge.

9. Teaching-learning practices in the online classroom environment support

the achievement of expected student outcomes.

10 Teaching-learning practices in the clinical setting support the achievement of expected midwifery student outcomes and expose students to individuals with diverse life experiences, perspectives, and backgrounds.

11. Teaching-learning practices in the Simulation and Translational Research Center support the achievement of expected midwifery student outcomes and expose students to individuals with diverse life experiences, perspectives and backgrounds.

12. Teaching-learning practices in the Simulation and Translational Research Center using standardized patient clinical scenarios support the achievement of expected midwifery student outcomes and expose students to individuals with diverse life experiences, perspectives and backgrounds.

13. The curriculum includes planned clinical practice experiences that: 1. Enable students to integrate new knowledge and demonstrate meeting of program goals; 2. Foster interpersonal collaborative practice, and 3. Are evaluated by faculty.

14. Individual student performance is evaluated by the faculty and reflects achievement of expected student outcomes. Evaluation policies and procedures for individual student performance are defined and consistently applied.

Alumni/Graduate Evaluation of Midwifery Program Survey

Please indicate to what degree you agree with the following statements: Scale 0 to 5

1. I am satisfied with the Georgia College program from which I Graduated
2. I think the Georgia College program prepared me well to practice in my chosen role as a nurse midwife.
3. I would recommend the Georgia College program from which I graduated to others.
